

# March 2022

## Round Table Discussion

Your group is to discuss # \_\_\_\_\_.

Read out the **RESPONSIBILITY**. Generate discussion:

- What does it mean to (example: be ready to learn and engage in education?) What does a student look like that is ready to learn? What does the classroom sound like? What does the school feel like? What would you see in a school of students who were showing us they were ready to learn?
- What do students need to do to (example: follow the rules at the school?)
- What do staff need to do to help students understand their responsibilities?

Read out the **RIGHTS**. Generate discussion:

- As a student, how can you develop skills as an engaged learner?

From our discussion, what do you feel would be important to add to a Stavelly School Charter of Rights and Responsibilities?

Further Discussion (more for my interest than our rights/responsibilities talk):

1. Tell me your favourite part of our school.
2. What would you start if you could? How would it look?
3. What would you stop at the school?
4. What is your wish for our school?
5. How could you be more active in our school?
