These slides look great! As a contractor representing the work of AAC we strongly encourage you to use our resources. This helps us get the information out there that these resources exist and of course, demonstrates how they can support their teaching. So there are no resources on our website that you are restricted from using when working for us.

Thanks for doing such a great job on your slides...of course I was not surprised at their quality! AAC is lucky to have you representing our resources.

Good luck with your session,
Michele
